MANUEL RIBEIRO

University of Minho | MiEGSI

About me

Recently concluded my Master's in Engineering and Information Systems Management at University of Minho, Portugal. Technology has always been an important part of my life and I have always been interested in the different ways it has changed society as a whole and how it continues to do so. I love overcoming challenges as a team and exploring new technologies and philosophies.

Education

2018 - 2023	Master's in Engineering and Information Systems Management University of Minho, Braga
2009 - 2018	Cólegio D. Diogo de Sousa, Braga
2004 - 2009	Externato Marista de Lisboa, Lisbon

English Courses

2017	Summer School English LAL, New York
2016	International Student Club Haileybury College, Hertford
2014	Language Explorer Dublin Malvern House, Dublin
2013	International Student Club Haileybury College, Hertford

Thesis

Sign Language Translation using Mixed Reality (18)
App developed in Unity capable of translating sign language to text and spoken language to text. Uses Azure Services for voice transcription and MediaPipe for sign identification.

Hobbies

Handball

Played handball for over six years in a federated level

3d printing (FDM)

Experience in optimizing and slicing different 3d models in Cura and some experience in creating my own 3d models using Blender

Fish/shrimp keeping

Avid fish keeper with experience in aquarium maintenance, fish care, and some shrimp breeding
